

An adventure awaits™

HOMESCHOOL PROGRAM 2016

January 6- Polar Animals

Explore what animals live in the polar regions! We will do some activities to learn how they survive in such extreme climates.

February 3- Burrowing Animals

Join in the adventure as we discover what animals live underground and the ecosystem underneath our feet.

March 2- Deer Study

Learn about the different types of deer that we have in Illinois & beyond!

April 6- Animal Babies

Spring is the time for baby animals. This month we'll gain an understanding of wildlife rehabilitation at the park and ways you can help keep wildlife wild.

May 4- Fabulous Felines

Join us as we take a look at the park's feline residents, like our bobcats and cougars!

June 1- Conservation Day

We will learn about recycling in our area and ways we can help.

July 6- Jurassic Park

Take a trip back in time and see some fossils right here at the park!

August 3- Scavenger Hunt

We will follow clues to discover the park and learn about all the different nature here!

September 7- Cool Canines

This month, we will visit the park's canines and learn about them.

October 5- Scavengers

Have you ever seen a turkey vulture on the side of the road? Learn about animals that scavenge for their food.

November 2- Rad Raptors

We will dive into the world of raptors and learn what makes these birds so special. We will meet some of the raptors at the park.

December 7- Enrichment

We will make some treats for our education animals and learn about what enrichment is!

Student Cost: \$10 per Student; Members \$6

Parent/Teacher Cost: \$3 admission; Members Free

Advanced registration and payment is required the Monday before the program

Program runs 1-3pm, unless noted. Please dress weather appropriate.
